In avoidance of doubt, any rebates for an individual product will be paid out only for the respective package fulfilment. In the case of products with weekly expirations only fees in the weekly expirations which are part of the package will be rebated. Rebates will be paid out separately for monthly and sub-monthly expiries.

3.3 Strategy Building Block Requirements for EURO STOXX® 50 Index Options

The following requirements apply for the EURO STOXX® 50 Index Options. The Strategy Sets (CBB Sets) are defined in the General Supplement to the LPA, Annex Table.

Expiration	CBB Applicable?	CBB Set
Monthly	Yes	5
Weekly and Month-End	Yes	1

3.33.4 Corporate Actions

In the case of a spin-off, where a basket option is created from the former product, the following applies:

- The basket will have the same Building Block requirements as the former product (except for PBB), becoming effective the date of the listing of the basket.
- If the former product was part of a package, the basket will replace the former product in the package, effective the first day of the next calendar month.
- Upon re-listing of the former product, the re-listed product will have the same LP requirements as the former product (except for PBB), becoming effective the date of the re-listing of the former product.
- If the former product was part of a package, the re-listed product will replace the former product or the basket in the package, effective the first day of the next calendar month.

In case of a corporate action e.g. a stock split, where the reference price of the underlying is adjusted, the spread and size class are reviewed to reflect the adjusted price while keeping the economics of the requirements unchanged, effective the first calendar day of the next calendar month. As part of the regular Corporate Action communication, the information about adjustments in Spread and Size class will be made available on the Eurex website under the following link:

Eurex Exchange > Rules & Regs > Corporate actions > Corporate action information

3.45 Package Review

If one of the underlying instruments leaves the Euro STOXX® 50 Index, the respective single stock option will be replaced by the single stock option on the underlying entering the Euro STOXX® 50 Index with effect from the first trading day of the next calendar month following the entering of the respective single stock option. The single stock option on the underlying leaving the Euro STOXX® 50 Index has to be quoted until the end of the month where the index change took place.

Changes to the packages for the above-mentioned reasons will be reflected in the quotation parameters table (cp. Sec. 4.2) as of the first trading day of the next calendar month.

Product Specific Supplement for Futures on MSCI Indices

Validity: Until 31 December 2023

Contact: Ralf Huesmann, Equity and Index Derivatives – Product Design, T +49-69-211-1 54 43,
ralf.huesmann@eurex.com

Preamble

This Product Specific Supplement for Futures on MSCI Indices (hereinafter referred to as "Product Specific Supplement") forms an integral part of the Liquidity Provider Agreement („LPA").

Six liquidity provider schemes for outrights are offered for each Futures product ("outrights") (LP1 and LP2 each in three time zones or quotation periods). The schemes differ in requirements for the minimum quote size, maximum spread as well as in the quotation period. LP1 schemes have tighter spread requirements, whereas LP2 schemes have higher quote size requirements.

In addition, another liquidity provider scheme for outright is offered only for selected products and time zones (LP3 ("stipend scheme")), which requires even tighter spreads and smaller sizes than LP1. This scheme does not qualify for the revenue sharing, but for additional partly fixed and partly volume-related incentives.

Only during the quarterly expiry months (March, June, September and December), another three liquidity provider schemes for the quotation of calendar spreads are offered for selected Futures on MSCI Indices ("calendars") are offered (LP2-LP4 in three time zones or quotation periods) in order to build up liquidity in the quarterly rolls.

In addition, a new liquidity provider scheme ("stipend scheme") is offered only for selected products ("outrights") and selected time zones (LP3), which requires even tighter spreads and smaller sizes than LP1. This scheme does not qualify for the revenue sharing, but for additional partly fixed and partly volume-related incentives.

As of 1 May 2023, on MSCI Indices another liquidity provider scheme is added for selected products (LP5) to foster basis trading by quoting the calendar spread instrument ("basis") between a daily and a quarterly future.

1. Applicable Building Blocks for Futures on MSCI Indices

Pursuant to Sec. 2.3 of the General Supplement to the LPA, the granting of rebates and the concrete rebate levels to be applied on the respective transaction fees are dependent on the fulfilment of Building Blocks. For this Product Specific Supplement, the following Building Blocks are applicable:

2. Liquidity Provider Rebates

Upon fulfilment of the Building Block requirements of one product, Liquidity Providers shall receive a fee rebate as specified in section 3 of the General Supplement to the LPA in accordance with the table below. All schemes shown above (LP1 ,LP2 and LP3 for outright, as well as LP42 for calendars and LP5 for basis trading) do qualify for Liquidity Provider Rebates in the respective product and month, however, a multiple refund will not take place upon fulfilment of more than one scheme in one product. The evaluation takes place on a monthly basis.

Five exchange days prior to expiration, Liquidity Providers may choose to quote either the <u>quarterly</u> front month or the second <u>quarterly</u> expiration month - Maturity Range B (LP4): In the expiry month of the quarterly Futures (first business day until and including Thursday before the 3rd Friday), the calendar spread between the front and the next quarterly expiry can be quoted to gain rebates and revenue sharing for selected products. (See quotation parameters table below) - Maturity Range C (LP5): The basis needs to be quoted, i.e. the calendar instrument of a daily futures (T+0 or T+1) against the first quarterly expiration - The LP requirement is fulfilled if either Maturity Range A or Maturity Range B or Maturity Range C is fulfilled.

4. Other monetary incentive schemes:

4a. Revenue Sharing

~~Two~~Four different revenue sharing components are offered as of 1 January May 2022 until 31 December 2022 in accordance with section 3.1.2 of the General Supplement to the LPA.

The first revenue sharing component applies to each product individually (LP1 & LP2), the second component pays according to the fulfilment of the quarterly calendar quotation (LP4), the third one according to the fulfilment of the basis quotation (LP5) and the fourth one pays according to the number of schemes a Liquidity Provider has fulfilled over the last three months. Hereby, each scheme (LP1 & LP2, LP4, LP5 in each time zone, outright (Maturity Range A) and calendar (Maturity Range B)) is counted. The number of fulfilled schemes per Liquidity Provider against the number of fulfilled schemes of all other Liquidity Providers defines the distribution of this component for all MSCI Futures combined.

~~The former packages (Developed Markets Europe / Developed Markets World / Emerging Markets) are no longer used.~~

Liquidity Providers, who trade via different Member IDs belonging to the same company group, will only be counted once, if they fulfil the exact same scheme via multiple memberships (e.g. not counted twice for FMEU LP1 in European hours).

The evaluation takes place on a monthly basis. For the avoidance of doubt: revenue sharing is only paid for those products, which are fulfilled by the Liquidity Provider.

VAT on the Revenue Sharing amounts shall be borne by the Liquidity Provider, if applicable, and will be offset against any due and unpaid Revenue Sharing amount.

The revenue sharing pool depends on the products. The following amounts (expressed in % of the net revenues in the respective product) are shared:

<u>Product</u>	<u>Single Product Scheme</u>	<u>Quarterly calendar quotation</u>	<u>Basis quotation</u>	<u>Number of schemes via last 3 months</u>	<u>Total revenue sharing amount</u>
<u>FMEU, FMWO, FMWN</u>	<u>4%</u>	<u>2%</u>	<u>3%</u>	<u>7%</u>	<u>16%</u>
<u>Other MSCI Futures with LP4 or LP5 scheme</u>	<u>8%</u>	<u>2%</u>	<u>4%</u>	<u>7%</u>	<u>21%</u>
<u>Other MSCI Futures without LP4 or LP5 scheme</u>	<u>13%</u>	<u>-</u>	<u>-</u>	<u>7%</u>	<u>20%</u>

Single Product Scheme	
Revenue Sharing Pool:	<p>Products FMEU, FMWO, FMWN: Up to 7% of the net revenues per product.</p> <p>All other MSCI Futures: Up to 12% of the net revenues per product.</p>
Participation Condition:	Fulfilment of Basis Building Block requirement in one or more of the schemes (LP1 / LP2) and the three quotation periods.
Number of Participants:	<p>Non-expiry months: Up to 30 (up to 5 per scheme (LP1 / LP2) per quotation period)</p> <p>Expiry months: Up to 45 (up to 5 per scheme (LP1 / LP2) per quotation period (outright) and up to 5 per scheme (LP2) per quotation period (calendar))</p>
Qualification Criterion:	The top 5 fulfilling Liquidity providers per scheme (LP1 / LP2) and quotation period participate, ranked according to their share of trading volume on M-accounts (order book) in scheme LP1 or ranked according to their share of cleared volumes on M- or P-accounts (excluding orderbook volumes on M-Account) in scheme LP2 of all fulfilling Liquidity Providers in the respective products
Distribution Method:	<p>Equal distribution: 1/3 of the net revenues is equally distributed amongst up to 30 Liquidity Providers (5 per quotation period in each scheme LP1 and LP2). Liquidity Providers can hereby qualify for different quotation periods and schemes and are thus incentivized to fulfil more than one quotation period per product</p> <p>Volume-based distribution amount: 2/3 of the net revenues are distributed proportionally among all qualifying Liquidity Providers</p> <p>Volume-based distribution method: The split of distributions between LP1 and LP2 is in a first step defined via the number of qualifying LPs in each scheme (LP1 and LP2), e.g. if there are 8 qualifying LPs in LP1 and 2 in LP2, the split would be 80% vs 20%</p> <p>In a second step this figure is adjusted by the order book share of the respective product (average of the last 3 calendar months).</p> <ul style="list-style-type: none"> If the order book share is 20% or higher, the split is not adjusted. If the order book share is between 5% and 20%, the LP1 share will be adjusted by a factor of 0.9, e.g. the split in the example above would be 72% vs 28% If the order book share is 5% or lower, the LP1 share will be adjusted by a factor of 0.8, e.g. the split in the example above would be 64% vs 36% <p>After the split between LP1 and LP2 is defined, the split within each scheme is defined by the proportion of volumes of the qualifying LPs, whereby</p> <ul style="list-style-type: none"> In LP1, the order book volumes on the M-Account are considered In LP2, the cleared volumes (i.e. after give-up & take-up) on either M- or P-Account are considered. Hereby, the order book volumes on M-Account are excluded to avoid double-counting of volumes between LP1 and LP2

	<u>Quarterly calendar quotation</u>	<u>Basis quotation</u>	<u>Number of schemes via last 3 months</u>
Participation Condition:	Fulfilment of Basis Building Block requirement in one or more of the schemes (LP4) and the three quotation periods.	Fulfilment of Basis Building Block requirement in one or more of the schemes (LP5) and the three quotation periods.	
Number of Participants:	Up to 15 (up to 5 per quotation period)		Up to 15
Qualification Criterion:	The top 5 fulfilling Liquidity providers per scheme and quotation period participate, ranked according to their share of trading volume on M-accounts (order book)		The Liquidity providers with the highest number of fulfilled schemes over the last 3 months

<u>Distribution Method:</u>	<u>equally distributed amongst up to 15 Liquidity Providers</u>	<u>The number of schemes fulfilled by each Liquidity provider in relation to all other Liquidity providers, who fulfilled any schemes in the last three months. This ratio will be used to define the distribution for all products combined</u>

4b. Stipends

For certain products (as shown in the table in Sec. 5b), a separate scheme (LP3) is offered, targeting members, who are willing to quote even tighter than under LP1 in return for additional payments ("stipends").

Stipends:	<p>Fixed incentives: depending on the number of fulfilled LP3 schemes per month (up to a maximum of 15,000 USD per Liquidity Provider), whereby the products are classified as "Tier 1" or "Tier 2" in table in Sec. 5b):</p> <ul style="list-style-type: none"> - For Tier 1 products, the fixed payment is 2,500 USD (with up to a maximum of 4 products per month) - For Tier 2 products or Tier 1 products exceeding the maximum of 4 products, the fixed payment is 1,000 USD per month <p>As there is no longer a differentiation in the criteria between the different time zones, Liquidity Providers can also fulfil during multiple time zones.</p> <p>Variable incentives: in addition to the fixed incentives, the LPs can receive variable incentives based on their number of traded contracts in the order book on M- or P-accounts in the products, which are fulfilled via LP3 (up to a maximum of 5,000 USD per Liquidity Provider per month). Hereby, for each traded contract in the products FMEU, FMWO, FMWN, variable incentives of 0.20 USD are paid, and for each other MSCI Futures variable incentives of 1.00 USD are paid (up to the maximum of 5,000 USD per LP and month)</p> <p>Examples:</p> <ul style="list-style-type: none"> - Liquidity Provider #1 quotes 4 Tier 1 products + 6 Tier 2 products with high volumes, therefore payment would be 15,000 USD (fixed) + 5,000 USD (variable) = 20,000 USD - Liquidity Provider #2 is able to quote 2 Tier 1 products and 3 Tier 2 products (including FMEU) and trades a total of 3,000 contracts (2,000 in FMEU + 1,000 in other Futures), therefore payment would be 8,000 USD (fixed) + 400 USD (variable for FMEU) + 1,000 USD (variable for the others) = 9,400 USD
Maximum pay-out	<ul style="list-style-type: none"> - A maximum pay-out of 200,000 USD per month (150,000 USD fixed + 50,000 USD variable) will be distributed as stipends - This maximum would theoretically be reached with 10 LPs, only if all of those would fulfil a higher number of schemes with sufficient volumes. Therefore, it can be assumed that in total more than 10 LPs can profit - However, if the maximum fixed payment of 150,000 USD would be exceeded, the amount is only paid to those LPs with the highest theoretical fixed incentives up to that limit. If at the end of such a ranking some LPs would have the exact same theoretical fixed amount, those would receive an equal part of the remaining amount. - Similarly, the variable incentives are capped at 50,000 USD per month. Hereby, the theoretical payment for all fulfilling LPs is calculated first and if that exceeds the maximum amount, all theoretical variable incentives are reduced by the same percentage figure to end up at 50,000 USD for that month.
Participation Condition:	Fulfilment of Basis Building Block requirement in one or more of the schemes (LP3) during the offered quotation periods.
Number of Participants:	No maximum number defined, but only maximum pay-outs

For the avoidance of doubt: the stipends given to Liquidity Providers under scheme LP3 are additive to the revenue sharing incentives given to Liquidity Providers under the other schemes described in 4a. LP1 and LP2

VAT on the stipends shall be borne by the Liquidity Provider, if applicable, and will be offset against any due and unpaid incentives.

Please note: As theoretically members participating in LP3 can receive incentives exceeding their actual fees, the stipends will be handled via invoices rather than the standard billing process. In order to receive a payment, eligible Liquidity Providers will be required to provide a quarterly invoice over the payment amount (as advised by Eurex) to: Eurex Frankfurt AG, Equity and Index Derivatives – Product Design, Mergenthalerallee 61, 65760 Eschborn, send via email to: ralf.huesmann@eurex.com.

c. Maturity Range B & C: Calendar spread contracts (LP4) & Basis (LP5)

For the following products, the quotation of the quarterly calendar spread, as well as quoting the basis is offered as well.

Quoting the quarterly calendar spread needs to be done in the calendar spread instrument itself. Quotation of the first and second quarterly expiry is not sufficient. Quoting the calendar is limited to the quarterly expiry months (March, June, September and December), i.e. only between the first business day and the Thursday before the 3rd Friday of those months the calendar spread between the first and the second quarterly expiry needs to be quoted.

Quoting the basis is also done via a calendar instrument between a daily and a quarterly future. The daily future can be either T+0 or T+1 in any given month. The quarterly future needs to be the quarterly front month.

Fulfilment of the quotation of calendar spreads or basis is sufficient to gain Liquidity Provider Rebates for the month in that particular product. In addition, it qualifies for Revenue Sharing. Only an LP2 scheme is offered, i.e. for the volume-related distribution of the Revenue Sharing the cleared volumes are taken into account (see Sec. 4)

The quotation parameters for the calendar spreads and basis are identical for all three time zones.
